2 DEPUTIES SHOT

One Bandit Captured, Others Es-

Cars.

Associated Press.

MEAD, Kans., Sept. 3.—Note telling of a plan to rob the Golden State Limited, Rock Island train from Chicago to Los Angeles, found in a garage 300 miles from here, resulted in Sheriff Squid frustrating the hold-up last night.

Two deputies were shot and perhaps fatally wounded in a battle with three bandits, one of whom was captured. The others escaped the pursuers.

The note was found at Topeka Monday night shortly after three men stopped for gasoline. Last night when the train arrived at Mead the sheriff and a score of deputies hidden in box cars appeared just as the bandits were demanding the engineer and fireman to throw up their hands.

PRESS RIDICULES PLANE ORDINANCE

Lexington Ordinance Prevents the
Flying of Airplanes—Others
Suggested.

LEXINGTON, Sept. 3.—On August 22 an ordinance was introduced before the board of city commissioners providing that aviators flying machines at an altitude of less than two thousand feet above Lexington should be arrested and fined not less than ten dollars nor more than one hundred dollars.

The commissioner that introduced the measure is the only one that is a member of the American Legion, and for the past two weeks the Veterans of Foreign Wars has been advertising the fact that airplanes would perform death defying stunts over the city on Labor Day at the big celebration held by the Veterans of Foreign Wars in Lexington on that day.

The ordinance does not provide how a policeman is to measure the altitude or make an arrest of an aviator who just happens to be passing over the city. There are only two planes in the city and both are owned by the same veteran who has contracted to fly for the Veterans of Foreign Wars on Labor Day, and who was so patriotic that he will not accept pay for his services.

The Lexington Herald on the date of August 23, on the front page published a story with large headlines ridiculing the ordinance and on the same page there appeared an account of a raid made by Prohibition Enforcement Officers on a soft drink stand on one of the most prominent streets of this city, where they made a haul of a five gallon keg of moonshine, sixty-four pints, and a half gallon jug of moonshine, eight quart bottles of red whiskey, eighteen pints and eight gallons in jugs, three gallons of peach brandy, about ten quarts of mixed whiskey and wine, and two half barrels of beer, thought by officers to contain four per cent alcohol. Two barrels labeled "salt" were opened and found to contain bottles of beer packed in straw, samples of these were brought to headquarters by the officers and will be analyzed for the purpose of determining the percentage of alcohol it contains.

About two years ago the same place was raided by the Prohibition Enforcement officers, and a large amount of beer containing a high percent of alcohol was found and the owner fined in Federal court. No arrests by the city policemen and no action in the state courts has been taken against the owner of the place.

The liquor is estimated at present bootleg prices to be worth about \$5,000.

A few years ago the commissioners of Lexington were asked to pass an ordinance to license cats, and the one concerning airplanes is considered by the citizens just as ridiculous. It is expected that when the commissioners pass the ordinance they will have the chief of police

CHINESE FIGHT NEAR SHANGHAI

Little Damage Done by Either Side
—Battle Line Extends To-
ward Woosung.

Associated Press.

SHANGHAI, Sept. 3.—With fighting at Hwangji near here in progress at 4 o'clock this afternoon between the contending armies of the two provincial Chinese governors, reports received here indicated that the battle lines were extending toward the coast in the direction of Woosung. Although there is a large number of troops engaged in the conflict, reports received here from Chekiang say no material advantage has been gained by either side.

More than twenty foreign war craft assembled at the harbor of Shanghai awaiting action on the part of the rival military governors which would place Shanghai in the line of fire endangering the foreign inhabitants. Before train service was suspended yesterday, more than 100,000 refugees poured into Shanghai.

Wife Joins Follies, Sues for Divorce

NEW ORLEANS, Sept. 3.—Oscar H. Quinlan today filed in civil district court a divorce from his wife, Lella Goodwin Quinlan, because of what he termed "shameful conduct" in appearing in the Ziegfeld Follies. The couple were married in Quincy, Fla., in 1918, the petition set forth, and came to New Orleans where Mrs. Quinlan remained until last June when she left her husband to go to New York and the Follies.

Ice issue to the cops extension measuring sticks which can be pulled out of the pocket and set in the air up to the height of 2,000 feet whenever an airplane passes over.

The race track and trotting track, where world records have been made and broken, are both located in the city limits, and for the past few years airplanes have been landing in both places, but under the proposed ordinance a landing place will have to be made 2,000 feet above both tracks in order to keep within the law.

The taxpayers believe that the police could render more valuable service by making arrests of sky violators on the ground, than spending their time gazing at the sky watching for airplanes.

RUSSIA ARMED AS PROTECTION TO OFFICIALS

Bolshevik Rulers Are
Barricaded Behind
Fortress.

LIKE FEUDAL KING

Would Require General Uprising
by Peasants to Tear Down
and Break the
Machine.

Associated Press.

MOSCOW, Sept. 3.—Russia's Bolshevik government is probably the only one in the world which barricades itself behind a fortress. Every department of the present Soviet regime, with three or four notable exceptions, has its headquarters within the high walls of the Kremlin, which, stripped of its churches, shrines, museums and art treasures, is nothing more than an armed citadel, almost invulnerable from attack.

No feudal king of the Middle Ages, secure in his castle of stone and steel, surrounded by moats, battlements, walls and earthworks, was better fortified against attack than are the members of the Soviet ministry. Not only are the entire precincts of the Kremlin carefully policed day and night by sentries with drawn bayonets, but the whole place is an arsenal of machine guns, small mortars, defensive works and battalions of reserve soldiers. On the rare occasions when a cabinet member leaves the Kremlin he is carefully guarded by plain-clothes detectives and personal bodyguards. Trotzky, who usually rides in an automobile, invariably sits in the front seat with the chauffeur while two secret-service men occupy the rear seat.

No political faction in present-day Russia is strong enough or foolhardy enough, foreign observers believe, to essay an open assault on the government, powerful and entrenched as it is both militarily and politically. But the government believes constant vigilance is the price of safety, and it takes no chances. In the event of an armed insurrection in Moscow the entire Kremlin would be alive with troops in the twinkling of an eye. The Moscow garrison alone consists of many thousands of soldiers, available at an instant's notice in case of a counter revolutionary movement on the part of any of the dissatisfied elements now in Russia.

While the Bolsheviks are able to maintain their Red Army and state political organization (formerly the notorious "Cheka") at their present efficiency, disinterested foreign observers in Moscow believe there is little likelihood for a long time to come of the present government being dislodged. They feel that only a violent mass upheaval among the millions of peasants scattered throughout the country would be capable of breaking down the formidable military, political and bureaucratic machine which the Bolsheviks have erected in every important center of Russia during the last seven years.

GEORGIANS RALLY TO POLLS SEPT. 10

Ku Klux Klan Issue in Coming
Senatorial Race—Governor
Unopposed.

Associated Press.

ATLANTA, Sept. 3.—Will Thomas W. Harwick be able to come back? is a question which will be answered by the Georgia Democrats when they vote in the statewide primary September 10.

Mr. Harwick is seeking the seat in the United States Senate now held by W. J. Harris, of Cedar-town, who defeated him in 1918.

Two years later, Mr. Harwick was chosen governor over Clifford Walker only to be beaten by the latter when he ran for re-election two years ago. Mr. Harwick also contested for the unexpired term of the late Senator Thomas E. Watson in 1922 which seat was won by W. F. George of Vienna.

This year the former governor and former senator is opposing the man who beat him six years ago for the Democratic nomination. Democratic nomination is Georgia is equivalent to election.

In this campaign Mr. Harwick scored the Ku Klux Klan. He also attacked the record of Senator Harris. The latter is asking the voters to give him another term on his record at Washington.

Governor Clifford Walker is unopposed for re-nomination.

Farmers Happy Over Federal Farm Loans

BERLIN, Sept. 3.—There is rejoicing among the German farmers, not only because the summer crop prospects are excellent, but due also to the fact that the government decided recently to advance 100,000,000 rentenmarks to tide them over the harvest period.

The money is to be advanced by the Prussian State Bank at the rate of 13 per cent a year, which is considered an exceedingly low interest just at this time. Bankers say the loan was granted on absolutely unimpeachable security, and gives an idea of the business awaiting foreign investors in Germany as soon as the political future of the country shows some inkling of stability.

MUSEUM IS HEIR

Leaves Institution Choice of Scientific Collection—No Hint of Any After Life.

Associated Press.

CHICAGO, Sept. 3.—The last will and testament of Nathan Leopold, Jr., joint confessor of Richard Loeb of kidnapping and murder of Robert Franks, was made public today.

"That Leopold contemplates the possibility of receiving the death sentence at the hands of Judge Caverly is evidenced by the letter written to Clarence Darrow, defense counsel. The letter bequeaths to the Field Museum the first choice of any five objects of Leopold's ornithological collection. The next choice is given to a cousin of Leopold's who may choose any three articles after the museum has made a selection. The museum is also given choice of any of Leopold's birds, mineral and transcripts.

Leopold also completed plans to pierce the veil shrouding death if he is hanged. Although he admitted being an atheist, he says he will not cast out any suggestion of the possibility of after life until he has had an opportunity to demonstrate its invalidity.

Papeete Boasts Traffic Cop

PAPEETE, Tahiti, Sept. 3.—Papeete has acquired its first traffic cop. BODY 'SHINER' TO BE SHIPPED HOME

Killed by Michigan State Police—
to be Shipped to Home at
Grayson.

NEWBERRY, Mich., Sept. 3.—The body of Walter Richards, who was fatally wounded Saturday afternoon when he is said to have failed to obey the commands of Trooper Fred Keene, of the Michigan state police, in a raid on a still operated by Richards and a companion, who escaped, has been shipped to his former home in Grayson, Ky., by the state.

Following Richards' death, Acting Coroner Genelle viewed the body and determined that an inquest was not necessary. A justice court investigation was held later before Justice Genelle, conducted by Prosecuting Attorney Prentiss W. Brown, and it was found that there was no cause for a warrant to be issued against the state officer as he was fulfilling his duties and was justified in the shooting. It was established during the hearing, it is said that Richards admitted making moonshine whiskey and that when he was being brought here after being shot said that he would give up the illegal manufacture of illicit liquor when he recovered.

REGISTRATION OF WOMEN IS URGED

Duty to Register—Lose Vote In
City, State, National Elec-
tions by Neglect.

"The vote of women will be a telling factor in the presidential election in November. Every woman who is eligible to vote in first second, and third class cities in Kentucky, must register either Monday or Tuesday of next week or she will not be allowed to vote in the November election, nor at the city primary next year, when a candidate for mayor and commissioners are to be selected," declares a prominent local woman.

"The League of Women Voters, which yields a powerful influence in political affairs on account of its constructive organization realizing that this is a year of opportunity and responsibility for the women of the state, is bending every effort to get women to register.

"Every voter must register her party preference, though it will not be necessary to vote for party candidates in November."

Men and women of Middlesboro who want to have a voice in the selection of city, county, state and national officials go to the polls to register September 8, 9, or 10, or be deprived of the privilege. They should not wait to have some one hire a car to take them to the polls. This is their duty, they owe this to their country.

Prince Goes On Lark With Pals, Stays Out Late

SYOSSET, N. Y., Sept. 3.—Polo seems likely to be the prince of Wales' major occupation during his fortnight's holiday on Long Island. The future king took part in another strenuous game today. He likes the game enormously and as he drove away in his motor car wrapped in a dark blue coat and a bright yellow muffler he talked and gesticulated vigorously.

After a bath and swim at the James A. Burden home, his holiday residence here, the prince and his entire party drove over to Eastwoods, the home of Mr. and Mrs. Henry Rogers Anthon to attend a dinner at which 40 persons were present.

The prince did not arise until after noon today, and after breakfast wrote letters to his family and friends in England. The heir to the throne was out very late last night, as is sometimes the case when he breaks free of his staff and guards and goes off for a lark with only one or two friends. One of his secretaries, when told that it had been reported that his absence had worried the king, held, said that the prince often kept late hours in London.

Fight.

HERRIN, Ill., Sept. 3.—Sheriff George Galligan and his deputy, Ora Thomas, are charged with having fired the first shots in an encounter last Saturday between his force and a group of klansmen in early testimony in today's inquest in to the deaths of six men slain in front of Smith's garage.

Dave Stek, employee of the garage, testified that the sheriff and his deputy fired the shots which killed Chester Reid who had generally been described as a bystander. Stek also testified that he saw Thomas holding Green Dunning, one of the klansmen slain, that he saw a moment before Dunning dropped from bullet wounds. He was unable to say who fired the shots killing Dunning, however.

25,000 TO TAKE PART IN PARADE

American Legion Convention at St.
Paul to Be Biggest Ever
Held.

ST. PAUL, Minn., Sept. 3.—Sixteen abreast in five and possibly more divisions, the 25,000 marchers in the great parade at the annual convention of the American Legion here from September 15 to 19, will require more than three hours to pass the reviewing stand, according to the convention committee.

The line will be five miles long and will make one of the most spectacular parade sights to be seen in the country this year. The parade will be held on the afternoon of September 10. As the departure having the biggest membership percentage means, Florida will lead the parade.

Col. Frank Matson, railroad and warehouse commissioner of Minnesota, has been appointed grand marshal. He is also chairman of the parade committee and is making arrangements for staging this event.

With three hundred bands and drum corps expected for the convention, Col. Matson stated that it may be necessary to form a separate division for those which cannot find places in the other divisions.

Regular army and Minnesota National Guard units will form the first division. Heading the column will be the Third Infantry, oldest infantry regiment in the army, from Fort Snelling, under the command of Col. W. B. Sample.

The second division will be composed of the departments of the Legion position is determined by membership standing. Scores of bands accompanying delegations will find places in this division.

Minnesota Legionnaires will form the third division. All special war service organizations and mixed units will be in the fourth division. Among these will be the American Legion Auxiliary, the Overseas Women's League, the Grand Army of the Republic, the United Spanish War Veterans, the Y. M. C. A., Knights of Columbus, the Shrine and others.

Flores and other special features of the parade will compose the fifth division. Ralph Budd, president of the Great Northern Railway, has been asked to act as marshal. Bands will form the sixth division.

Parade units will assemble in the side streets. Care will be taken to make the direction of the parade constantly down hill. It has been announced. Unnecessary walking will be avoided, so far as possible. The committee has announced that all will be given good seats. All out before dark and the parade will be over by 10 p.m. and review the marchers.

THE CHURCH
LAW ENFORCEMENT

In calling upon the membership of 6,000 churches, representing a membership of nearly a million, the National Council of the Congregational Churches makes the following statement regarding the flagrant way in which the Eighteenth Amendment is being violated by certain classes:

That it constitutes a serious menace to the whole fabric of law and order, since if one law can be broken with impunity, many will take the same attitude toward other alleged, unenforced laws. "He who laughs at the law, laughs at his own safety."

That in the present crisis a peculiar responsibility rests upon our churches. The church people expressing the majority, made possible this law and upon them now falls the task of expressing the public demand for rigid enforcement.

The application made by the Congregational church can be applied to churches everywhere. If the Christian church, broadly speaking was on the job, dry agents would be hunting new jobs in a year. The church membership of Middleshoro would be able to make the illicit liquor industry, decidedly unprofitable within a month's time if their efforts were rightly applied. It is being done in other towns and cities and there is no reason under the constitution why it cannot be done here.

Twentieth Century church membership should stand as a vital force for law enforcement. It is easy to throw up a smoke screen on matters of minor importance and forget altogether or almost much more important issues in the morals of the community.

Traffic Condition

Editor Daily News:

Why are not the traffic cops more strict about cars that run at night without the proper number of lights? Any night, an officer stationed near the Middleshoro Hotel, will see about every fourth car that passes has but one front light, or no tail light, frequently one light and tail light are both lacking. If these three lights are not necessary, why are they put on a car. If they are necessary, why are car owners not compelled to have them all the time?

Knoxville Streets
Editor Daily News:

"Asphalt paving varies in price from \$2 to \$2.00 per square yard, exclusive of grading. The \$2 paving is a 6" concrete 1-3-6 base, and an oil asphalt, Topoka Mix asphalt concrete 2" thick for wearing surface. The \$2.00 pavement is a 6" 1-3-6 concrete base; a 1" close binder with 2" sheet asphalt top, or a \$2.25 with a 1 1/2" top. The asphalt concrete on a 6" base is preferred, as the inch binder course is thought to be unnecessary, as the asphalt concrete is less liable to creep or warp than the sheet asphalt. This price does not include grading. Comparatively little concrete paving has been done in Knoxville in the last ten years, and most of it (known as Biome Granitoid) is

still in good condition where the cracks have been filled with asphalt.

The present administration is much more favorable to concrete streets in Knoxville than the past administrations have been. A price of \$2 per square yard for a 6" 1-3-6 pavement is anticipated. Cement curb 6x6x3 costs 35 cents per foot, exclusive of digging. Combined curb and gutter is \$1.50 per linear foot, which is considered too high and a reduction to \$1.15 is anticipated.

A properly constructed concrete pavement, 6" thick, laid on properly prepared base, will last indefinitely, under motor traffic, while a similarly constructed asphalt pavement wears out in time."

RIGA, Sept. 7.—The Soviet government shipping board has decided to open an express service between Leningrad and London. It will be principally to supply the London market with Russian butter, eggs and caviar.

Secretary Hoover, in a recent statement, characterized properly drawn zoning ordinances as "reasonable, neighborly agreements as to the use of land." They divide a city into districts in which are limited the use to which land and structures may be put; the height and number of stories of the buildings; and the areas of the lots to be occupied by the buildings. Their professed object is to regulate the use of private real estate for the purpose of promoting health, safety, morals and the general welfare of the entire community.

That the idea has made a strong appeal to the American people is shown by the rapid spread of zoning. On January 1, 1923, there were only 129 zoned cities, towns and villages. The first comprehensive effort to zone was the passage

of a zoning ordinance by New York City in 1916; although Los Angeles, Calif., passed a "Use" ordinance in 1909, and Boston, Mass., regulated the height of buildings in 1901.

Cities, towns and boroughs throughout the country generally are showing more than a passing interest in zoning. Where authority is granted, various municipalities are actively engaged in the solution of their zoning problems with enthusiastic zoning commissions and auxiliary committees at work. Even where state legislation does not authorize zoning, various public spirited and progressive organizations are studying the local situation so that when zoning can be effected legally, much of the preliminary work will be finished.

New Jersey leads in the number of zoned municipalities, having 60; New York has 11; California has 33; Illinois 25; Massachusetts, 24; Ohio, 10; Wisconsin, 13; Indiana 5; Michigan and Missouri, 4 each; Iowa and Rhode Island, 3 each; Florida, Michigan, Oklahoma, Pennsylvania, Virginia and Washington, 2 each; and Arkansas, Colorado, Connecticut, Georgia, Maryland, Nebraska, North Carolina, North Dakota, South Carolina, Tennessee, Utah and the District of Columbia, one each.

The complete list of zoned municipalities can be secured from the Division of Building and Housing, Department of Commerce, Washington, D. C.

HUNT'S DAILY LETTER

(By Harry B. Hunt)

WASHINGTON, Sept. 3.—Republican strategy in the presidential campaign has hurt Democratic pride. In the end, that may be a bad thing for the Republicans, for Democrats, being proud partisans, may be led thereby to redouble their assaults on the G. O. P.

A woman scorned is not more bitter in her fury than a Democrat disregarded.

The thing that has stung Democracy's leaders most deeply so far in the campaign is the studied attempt to make the Davis candidacy appear unimportant, even inconsequential.

Chief Republican emphasis is being placed on the La Follette candidacy. "The psychology back of this movement, of course, is to appear to place the Democratic party in third position."

By doing this, it is figured by G. O. P. strategists, all good conservative votes will be swept into the Coolidge column, since the real conservatives, whether Democratic or Republican, are, first and foremost, anti-La Follette.

If the conservatives in both parties can thus be rounded up under the Coolidge banner, the managers for "Canny Cal" feel they will have accomplished a double purpose.

They will have elected their candidate and simultaneously given Democratic pride and prestige a blow from which it may be long in recovering.

September, however, will find the Democrats in massed attack in an effort to force some of the salients in the Coolidge fortifications. One of the first points of attack will be the "Republican Campaign Text Book."

In this volume, which consists of more than 400 pages of fine type, is presented the Republican reasons why Coolidge should be re-elected.

Democrats, however, purpose to make the Republican "Text Book" the source for Democratic texts also. But the Democratic sermon-

STATES BENEFIT
BY ZONE SYSTEM

Methods to Provide Building Restrictions Helpful to Growth of Town.

WASHINGTON, Sept. 7.—Approximately 21,000,000 people living in 261 municipalities throughout the United States, are enjoying the benefits of zoning, according to statistics compiled by the Division of Building and Housing, of the Department of Commerce.

The greatest zoning center is in the territory in New York State and northern New Jersey, having New York City for its hub; other centers are in California, Ohio, Massachusetts, Illinois and Wisconsin.

Secretary Hoover, in a recent statement, characterized properly drawn zoning ordinances as "reasonable, neighborly agreements as to the use of land." GERMAN LINES TO
SEEK EFFICIENCY

Merger of Big German Shipping Interests Expected to Improve Service.

Associated Press.

HAMBURG, Germany, Sept. 7.—The shipping companies of Germany have effected a pooling of interests that will be far-reaching in importance to shippers everywhere.

The new arrangement practically eliminates competition between German concerns, and substitutes therefore a close coordination of the entire German shipping industry.

The most far-reaching arrangement is that covering the lines doing business with the Orient. The German Levant line and the Ger-

man Orient have merged. The Levant line in turn represents a merger of the German Levant line, the Bremen Aro line and the Bremen Atlas line. All of the shares of the Levant line were in the hands of the Hamburg America line. Before the German Orient line, which is a stem and Hamburg concern, was ready also to merge, it insisted upon receiving 50 per cent of the shares of the Levant line. This was conceded, whereupon the entire oriental service was combined in one concern. This means freight rates can be offered that will successfully undercut, it is claimed, those of other countries.

This combination of shipping companies doing business in the near East is regarded as actually putting all German shipping under one hat.

By pooling interests, the Ger-

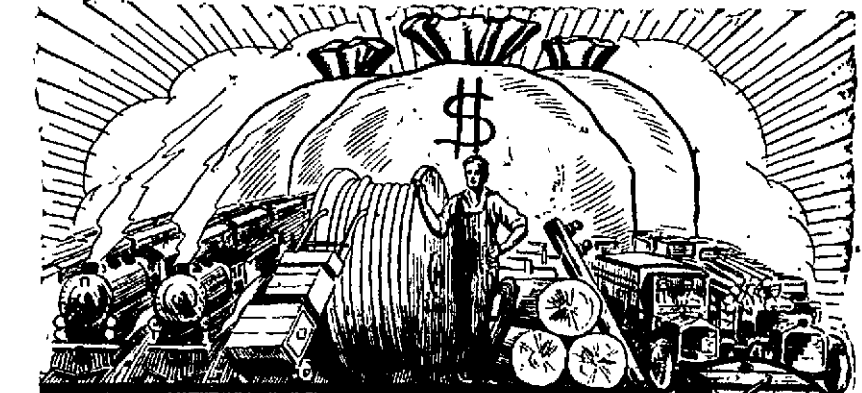

man lines hope to make it possible to throw their tonnage in whatever direction business is best without having to keep up established schedules merely for the sake of prestige.

Shanghai Shipping Gold

Associated Press.

SHANGHAI, Sept. 7.—Declaring exports from Shanghai to the United States in the month of May amounted to \$3,654,688, and for the first five months of 1924 to \$18,951,931.

The principal articles exported were goat and kid skins, cotton laces and embroideries, raw silk and erdelle camphor. Gold bars to the value of \$1,415,509 and gold coin to the value of \$548,762 were exported to the United States in the five-month period.

Enormous Sums Expended
To Enlarge Telephone Service

THE enormous amount of new telephone construction under way in Kentucky has made necessary a programme of activity rarely before equaled in the telephone industry.

During the first six months of this year additional equipment, apparatus, cable and telephones have been installed at a cost of approximately \$468,286.

There remains to be completed during the balance of this year similar new construction costing approximately \$831,714.

The new facilities provided in this manner enabled the telephone workers to install 5,746 new telephones during the six month period, resulting in a net gain of 1,667 stations.

KENTUCKY

OPEN CAMPAIGN/
LOUISVILLE, Ky., Sept. 3.—Both Senator A. O. Stanley and Fred M. Sackett, the Democratic and Republican nominees for the United States Senate, will open their campaigns on Saturday, September 6. And both, it is announced, will conduct a vigorous speaking campaign until the eve of the election, covering all parts of the state. Senator Stanley opens in Lexington, Mr. Sackett in Columbia. During the week following, the Senator, making his race for

reelection, will speak in several places in eastern Kentucky, while Mr. Sackett will spend the same week making addresses in the Cumberland river counties. It is said that his Saturday afternoon address in Columbia will mark the first time that any Kentucky candidate for the United States Senate has ever opened his campaign in Adair county.

MRS. COSSAR, CHAIRMAN
RICHMOND, Ky., Sept. 3.—Senator William O. Maas, of Richmond, Republican State Campaign Chairman, has just announced the appointment of Mrs. Aubrey Cossar as chairman of the Woman's State Republican Campaign. Mrs. Cossar is a member of the Republican State Central Committee from the Fifth District and was chairman of the Jefferson county Women's Division in 1921, when the Republicans elected their entire city and county tickets.

MEET AT BEREÄ

BEREÄ, Sept. 3.—A big Bereä field experiment meet was held Saturday at the Upper Creek school house. Dean Cooper and George Roberts, of the State College of Agriculture, and a number of county agents were present. The Community League furnished lunch for those who did not bring any.

VIRGINIA

WHY BUY AT HOME?

NORTON, Va., Sept. 3.—The Norton chamber of commerce is offering cash prizes to the amount of \$30 for the best composition, not to exceed 150 words, on the subject "Why Trade at Home?" The contest is open to everyone and closes September 30. It is expected to stimulate interest in patronizing Norton merchants.

CORPUS DELICTI

GATE CITY, Va., Sept. 3.—If the law of corpus delicti applied to canine demise the verdict of the court in the local "dog" case would have been different. A dog, apparently suffering from rabies, appeared at the home of Hugh Freeman recently and he shot it. Mr. Shelton, owner of the fox, charged the alleged slayer for fifty dollars in magistrate's court and recovered, though the case was appealed to the circuit court. Meanwhile the dog returned home, not badly hurt, but with a bullet hole through its nose.

FAMILY REUNION

COBBURN, Va., Sept. 3.—For the first time in twenty years members of a local family were together here recently. J. C. Dawson and sister, Mrs. I. H. Price, of Crane's Nest, held a family reunion, having in attendance their brothers and families, D. A. Patterson, of Bristol, and J. M. Patterson, of New Orleans.

DEATH RATE LOWER

RICHMOND, Va., Sept. 3.—The Department of Commerce of Washington announces that the 1923 death rate for Virginia was 12.84 per 100,000 population as compared with 12.99 in 1922. This decrease in 1923 is largely accounted for by decreases in the death rate from influenza (from 12 to 8.4), measles (from 2 to 2.2), whooping cough (from 8 to 1.7), and pneumonia (from 8 to 4.2). There are shown in the death rates from tuberculosis (all forms) from 1.90 in 1922 to 1.21, nephritis from 1.01 in 1922 to .91, and diphtheria from 2.0 in 1922 to 1.4.

CIVIC IMPROVEMENTS

NORFOLK, Va., Sept. 3.—Building permits issued during July total \$767,682, compared with \$266,447 for corresponding month last year. New school building will be erected in sixth ward. Bathing beach is being planned in connection with new city park in Western Branch.

ROSE HILL

ROSE HILL, Sept. 3.—Miss Virginia Rhea, of Norfolk, was the guest of Mrs. D. E. Pierce last week. Mrs. Laura Elv and Mother, are the guests of Mrs. Emma Edds this week. Mrs. D. E. Pierce, Miss Virginia Rhea and Miss Florence Bayless made a motor trip to Middlesboro and Tazewell Thursday. Mrs. Hattie Clark and children from Irvine, Ky., are the guests of Mrs. Mary Beatty.

Ready for Big Test

Harry Wills, the colored heavyweight of New Orleans, is ready for the big test. Wills meets Luis Firpo, the giant South American, at Jersey City, September 11. If he flattens the wild bull, Wills will be in line for a title match with Jack Dempsey.

W. C. T. U. met with Mrs. D. T. Smith Thursday.

Mr. B. Frigate made a business trip to Knoxville last week.

Mrs. Daisy Rosenbaum passed to her reward last Thursday night after an illness of many weeks.

Mrs. Susie Moore from Gallatin, Tenn., is visiting her father, Arch Bell, who is very ill.

Miss Maude Quillman returned home from Radford Saturday.

Miss Annie Mae Hobbs has returned from Charlottesville, Va.

Mr. and Mrs. Harrison Myrman were the dinner guests of Mr. and Mrs. J. W. Shaffer.

Mr. and Mrs. C. A. Bales, Miss Irlis Bales, Mrs. Evelyn Biles, Mrs. Harriett Ely, Mr. and Mrs. M. S. Knecht and children were the dinner guests of Mrs. Dollie Ely Sunday.

School in Lee county all begin September 2. The first day of September all teachers met at townsville. The following teachers are employed at the Rose Hill High School: Prof. J. B. Wolfe, of Dresden, Principal; Misses Melodie Grobel, Mallinda Chance, Mary Giles, Florence Bales, Mrs. Emma Edds and Laura Lovelockham.

TENNESSEE

ATTEMPTS SUICIDE
ROCKWOOD, Tenn., Sept. 3.—Theodore Hamlin, former Rockwood man, at Chattanooga where he has been living for some time. According to reports, he jumped from the front porch to the concrete sidewalk six feet below and sustained painful injuries. He was rushed to a sanitarium for medical treatment.

CITY HALL COMPLETED
IRVING, Tenn., Sept. 3.—Irwin's fine new municipal building and Mason's hall has just been turned over to the contractors as finished. Dixon brothers of Irwin, the general contractor and the Barker Plumbing Company of Irwin, had the plumbing and heating contract. The building is four stories, the Mason's having the upper floor. Aside from space for the municipal offices on the first floor, the building has a large auditorium on the second floor with a seating capacity of about 12,000 and ranks along with the best structures in Irwin. The approximate cost and furnishing will be \$100,000.

THIEF TAKES GUNS
JELICO, Tenn., Sept. 3.—Smashing the front window of the Siler-Jones Hardware company, an unknown man stole two shotguns and escaped. Two employees of the L. & N. railway heard the crash and saw the man escape. The shotguns were valued at about fifty dollars each.

AUTO TRAFFIC GROWING
NASHVILLE, Tenn., Sept. 3.—More than \$10,000,000 will be available for the construction of state roads by 1930. This is expected at any rate, by the State Department of Highways and Public Works, and is based on an increase of the gasoline tax to three cents and continuance of the license fee and federal aid as at the present time.

There will probably be 357,000 automobiles in the state by the year 1930, or one automobile for every seven persons, it is estimated by the Department.

Synagogue Destroyed Just Before Service

BUCHAREST, Sept. 2.—The Jewish synagogue in the village of Zapesti, near Arat, recently was destroyed by the explosion of what authorities said was an internal machine. Owing to the fact that the explosion occurred an hour before the time for service there were no casualties, none of the worshippers having entered the place. From an investigation made it was assumed that the bomb went off prematurely.

There is a large Jewish population in Zapesti and Arat, and the placing of the bomb in the synagogue is believed to have been an act of anti-Jewish agitation.

DOES YOUR BACK ACHE?

Bad Backs Bring Suffering to Many Middlesboro Folks.

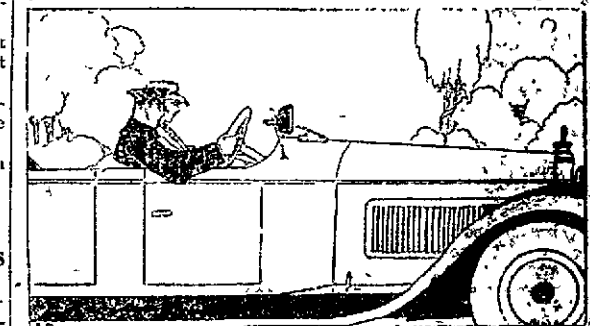

Is that dull, constant backache making you old and miserable? Does your back throb and ache until it seems you just can't keep going? Do you suffer headaches, dizzy spells and urinary disorders; feel weak tired and worn out? Then look to your kidneys. Delay may mean serious kidney sickness. Use Doan's Pills—a stimulant diuretic to the kidneys. Doan's are recommended by Middlesboro folks. James Sharp, farmer, 203 Lohrbury Ave., Middlesboro, says: "Deep pains across my back, steadily become more severe. Knife like pains started across my kidneys when I straightened up from bending over and mornings my back was so lame and sore I could hardly walk. My kidneys hardly acted at all. I used Doan's Pills, from Smith's Drug Store, and my kidneys acted regularly and the backache left." 60c at all dealers. Foster-Milburn Co. Mfrs. Buffalo, N. Y.

An interesting test of the reliability of pigeons as message bearers was recently made by the Swiss general staff. Twenty doves were taken to the highest accessible point of the 'Junfrau' and released. The day was cloudless in the upper regions of the Alps, but all the cities and valleys were screened from view by a thick layer of fog.

Seventeen doves started in a straight line for Berne. Two strayed in the wrong direction, and a third became lost for a while in the valley. But the entire flock finally reached their destination. The three erring doves were only ten minutes behind the leaders in getting home.

It Happens Every Day

Smythe wanted to find a chauffeur who would take some real care of his touring car and show a little personal interest in the tire and repair bills.

Around at the service station, someone recommended a young man who turned out to be an altogether different type. It seemed to be his aim in life to beat last week's record for blow-outs and broken springs.

A friend suggested another entry, who shortly developed a weakness for taking the car out on private excursions of his own.

Meanwhile, Smythe asked here, there and everywhere for a good chauffeur, but without a trace of luck.

And then he called No. 63!

The next day his Help Wanted Ad in the Daily News brought five reliable-looking applicants for the place, and he picked out a young fellow who had gilt-edged references, knew engines like a book, and looked as though he'd be a real friend to an abused touring car.

DIVIDENDS Are Necessary to the Progress and Development of any Business

Invested money must earn money, or there will be no new capital forthcoming with which to take care of increased volume. This theory is elemental and the statement is true; yet it is interesting to know that nearly one half of America's second largest industry pays no dividends on its capital stock. Three billion dollars worth of stocks in railroads (of the approximately seven billion dollars outstanding) is not earning or paying a dividend.

What is the reason for such a condition existing? How long can this continue? How long will investors be willing to put their money into such non-profitable securities?

The first question is easy to answer: "Increased operating expenses without proportionate increased revenues." The second and third questions cannot be answered until the American people, through their lawmakers, evidence a keener appreciation of the railroads' problems, and

in some quarters a fairer and less radical attitude toward the carriers. In order to serve the Nation with adequate freight and passenger transportation, the railroads must have new capital to take care of needed improvements and extensions. New capital will not come when capital already invested is not paying a fair return.

A WISH
Mine be a cot beside the 14th;
A beehive's hum shall soothe
my ear;
A willow brook, that turns a mill,
with a fall shall linger near.
The swallow, oft, beneath my
thatch,
Shall twitter from her clay built
nest;
Off shall the pilgrim lift the latch,
And share my meal, a welcome
guest.
Around my ivied porch shall spring
Each fragrant flower that drinks

And Lucy, at her wheel, shall sing
In russet gown and apron blue
The village church, among the

Where first our marriage vows
were given,
With merry peals shall swell the

And point with taper spire to

RUSSIAN MAIDS HAVE PRIVILEGES

Domestics in Russia Fare Better
Than Household Servants
In America.

MOSCOW, Sept.—American
housewives who think their ser-
vant problem a difficult one should
turn to Bolshevik Russia where
cooks and pantry workers demand
many more privileges than do ser-
vants in the United States. In ad-
dition to an eight hour day and one
day off each week, servants here
have a month's vacation during the
year, full insurance, the right to
attend trade union meetings when-
ever they desire, and other lib-
erties.

In Moscow employers must sup-
ply their domestics with two dress-
es a year, two pairs of shoes, four
pairs of stockings, half a dozen
aprons and numerous other articles.
As a class Russian servants are
now better off than any other cat-
egory of workers.

Card of Thanks.
We wish to express our thanks
to our many friends for their sym-
pathy shown us during the illness
and death of our darling baby,
Amos Guy Idol, also for the beau-
tiful floral offerings.

Mr. and Mrs. Amos Idol.

AMUSEMENTS

LEATRICE JOY IN PICTURE TONIGHT

"Changing Husbands," at Manring
Tonight, is Real and Orig-
inal Comedy.

Two girls with but a single
thought—how to find happiness.
That just about sums up the theme
of "Changing Husbands," the new
Paramount picture featuring Lea-
trice Joy, which comes to the Man-
ring theatre tonight, in a nutshell.
The story is an adaptation by Sara
Cowan and Howard Higgins of the
Saturday Evening Post serial
"Roles," by Elizabeth Alexander.
Frank Crisp and Paul Iribe di-
rected the production under the per-
sonal supervision of Cecil B. De
Mille. "Changing Husbands" in-
cidentally, their first dictatorial
achievement.

"Changing Husbands" is first of
all real comedy, and as such has
gotten away from the usual dried-
up line of slapstick stuff and
brought something really differ-
ent to the screen. Victor Varconi,
the young Hungarian actor recent-
ly seen in "Triumph" and who was
brought to this country by Cecil B.
De Mille, has the principal part.
Raymond Griffith, of "The Dawn of a Tomor-
row," also has a prominent part.

It is said that we live to learn,
and after seeing "Changing Hus-
bands" you'll be willing to admit
that Griffith is a real comedian as
well as an accomplished dramatic
actor. Melford's "Dawn of a To-
morrow" proved the latter beyond
a shadow of a doubt. But Griffith's
art is peculiar to him alone. Just
one facial expression and he has
the crowds in an uproar. Varconi
is no slouch at the light end

and his merry-makers.
Coburn has undoubtedly the
best offering of years. It's a good
company altogether, not only per-
sonally but the chorus works with
a vim that is particularly note-
worthy. That octette in Part 2,
was an eye-opener and was thor-
oughly relished. We could have
stood for a whole lot more with-
out any dull moments. Moving
rapidly along, without any dull
moments, you follow from the first
part on to Hank White's absurd-
ity, "Saphronia's wedding Day" and
then come those two funsters,
"Slim" Vermont and Nate Mulro,
both black-face entertainers par
excellence in a poker game that
made the old-timers sit up and
chuckle.

**COBURN'S STILL
HAVE GOOD SHOW**

Coburn's Minstrel, Coming Here on
September 17, Popular in
Maryland.

Middlesboro people who saw Co-
burn's Minstrels here last season
need no introduction to the per-
formers, though the following re-
view from the Cumberland (Md.)
Daily News, indicates that they are
just as good this year and that a
treat is in store for those who at-
tend the show at the Manring,
September 17.

A real nice clean minstrel show
is Coburn's Minstrels at the Man-
ring with a wealth of fun and ri-
dicularness combined with much
very good singing, in fact, excep-
tionally good in this respect. For
a summer night's clever amuse-
ment last night, the Maryland was
the place for those who always see
a minstrel show and a whole lot
of the old-timers together with a
number of the younger element,
men and women, boys and girls,
spent a merry night with Coburn
and his minstrels.

It's an unusually good show and
that's the truth, starting with a
large number of soloists singing
and singing well, carried on to the
close with several sketches, some
screamingly funny, others musical-
ly artistic in their intensity. You
can't go wrong by spending an af-
ternoon or an evening with Coburn
and his minstrels.
